Last summer, the Sustainable DC team broadened the reach of the plan update by surveying 3,000 residents and producing 16 pop-up events at locations across all eight wards.

The District has made great progress toward becoming the healthiest, greenest, and most livable city in the US this past year. Below are just a few highlights. To read more, visit www.sustainabledc.org/2018progress.

**EQUITY & DIVERSITY**

Mayor Bowser committed to make DC climate resilient and to reduce the city’s greenhouse gas emissions 100% by 2050. DC was also named the first LEED Platinum City in the world.

**ENERGY**

Solar for All will deploy up to 7 megawatts of solar generation capacity — enough to power 2,000 homes annually and reduce energy bills by 50% — to serve 100,000 households by 2032.

**CLIMATE & BUILT ENVIRONMENT**

Mayor Bowser committed to make DC climate resilient and to reduce the city’s greenhouse gas emissions 100% by 2050.

**TRANSPORTATION**

58% of commuter trips are made by bike, walking, or transit. Source: U.S. Census Bureau.

**JOBS & ECONOMY**

39 trainees graduated from Solar Works DC, DC’s groundbreaking solar installation job training program that provides solar electric systems to income-qualified households. 14 of those graduates now work in the solar industry.
Sustainable DC 2.0 is a collaborative citywide effort to update the District’s 2013 sustainability plan, Sustainable DC. The updated plan will incorporate changes in technology, new District programs and policies, and better reflect the priorities of all District residents.
