

Show DC Some Love

Valentine's Month is a great opportunity to show your appreciation to those you love most. In honor of Valentine's Month, we're declaring our love for DC. Whether you volunteer to clean up your neighborhood park, donate clothes to a local thrift store, or drop off unwanted electronics at this month's Roll-Off Day, Sustainable DC would like to send a special thank you for showing the District some extra love! To help show that love moving into March, we've packed this newsletter with sustainable grant opportunities, green jobs, and some fun ways to volunteer in the city.

We would like to send a special shout out to our SDC Volunteers who rocked it this month by volunteering throughout the city. We tracked some of the action through the hashtag on our social media #LOVE2Volunteer!

If you're not already a SDC Volunteer, it's not too late to join. As an SDC Volunteer, you can decide when and where you volunteer, and how often you want to commit. It's a very flexible program designed to connect people who want to get involved in hands-on sustainability, but aren't able to commit to required number of hours. Learn more and sign up to volunteer with us [here](#).

What in the Worlds?

Global Footprint Network

WHAT IS YOUR

Ecological Footprint? Quiz

How many planets do we need if everybody lives like me!

When is your personal Overhead Day!

TAKE THE FIRST STEP

In partnership with: Life Is On | Schneider Electric

Take The First Step!

Do you know how many planet Earths it would take to sustain your current lifestyle? An interesting way to understand whether we're appropriately showing our love the Earth is understanding how much of its resources we're using. You can calculate your ecological footprint to find out at <https://www.footprintcalculator.org/>
